Group Member Evaluation

Jordan Barton - Jordan has been an excellent team member. Jordan provides a lot of great ideas to the group and takes everyone's opinions into consideration. They often lead the conversation and take initiatives when it comes to submissions. Jordan displays great leadership qualities and is a trustworthy team member.

Camille Joie De Jesus - I believe that I am an excellent team member. I provide my ideas and am open to everyone's opinions as well. I organized the GroupMe and set up reminders for the group to meet every week to ensure that we are on top of the project. I also ensure that my part of the project is completed so that nothing falls behind. I believe that I am and will continue to be a strong team member.

Andrew Lambeth - Andrew has been an excellent member as well. They are very communicative and open to everyone's ideas. They also provide many ideas that help the group, such as a way to illustrate a storyboard for the checkpoint and features to add on the application. They are very reliable and display great team member qualities.
